revolutionary production

By investing in the most modern manufacturing machinery currently available in Europe, we can boast the most efficient steel locker manufacturing facilities in the UK. Our world class production facility utilises the latest in data driven technology placing Pure firmly in the Industry 4.0 age. Our attention to detail and the speed of production achieved by our new tooling allows us to deliver a service not yet experienced in our marketplace.

carbon zero

We take our social and environmental obligations very seriously. By sourcing raw materials and energy responsibly and investing heavily in the latest production techniques we can minimise our carbon footprint and are proud to offer, what we believe is, the first carbon neutral manufactured steel locker in the world.

our product

The Pure range is the result of many years of experience in the personal storage industry. We know everybody's requirements vary, so we have an unrivalled ability to adapt to most needs. Each product in our range has been reimagined and redesigned utilising our cutting-edge technology to ensure we offer a product to suit your requirements.

covid safe

At the heart of our own anti-bacterial coating, Bioshell, is Powdura® ECO powder coating from Sherwin-Williams. This COVID safe powder coating provides customers a more eco-conscious anti-bacterial solution to product protection, colour and performance.

pure laptop power

Pure power lockers offer the highest quality power strips, available in 240volt, USB and USB-C. Our range of power lockers have individually locked compartments or single door quick access compartments enabling secure access and charging, ideal for universities, schools and offices. Each unit is vented to prevent accumulation of heat. Lockers should always be secured to a wall for security and safety.
